1. Executive Summary & Forensic Narrative

Autonomous forensic intelligence verified coordinated cross-modal market manipulation on target ZENITHSME [EV-TRADE_SLICE-3674d25ab927]. Social intelligence detected high-volume artificial Telegram/X hype bursts preceding trading dislocation [EV-SOCIAL_SLICE-4059c82130ad]. Cyber-forensics attribution graph identified a tightly coupled collusion ring of 20 accounts executing circular wash trading [EV-GRAPH_EXPORT-22a841764965]. Cross-modal anomaly fusion confirmed that social campaign escalation led market volume spike by ~150 seconds [EV-ANOMALY_EVENT-c17d62bdae59].
